

hospitaldirectory

A guide to hospital choice under your Preferential policy

Winners of Health Insurance Company of the Year and Best Customer Service in the 2008 Health Insurance Awards.

Effective from 1 May 2009

Care comes first

Hospital Directory

The hospitals listed on the following pages are grouped together by area for ease of reference. The directory shows the scales applicable to each one. Scale A covers the most expensive hospitals and Scale D the least expensive. Classifications do not reflect quality of treatment. If more than one scale is shown against a hospital it means that there are different room costs within that hospital and if you have lower scale cover your admission will be restricted to a lower cost room.

Hospitals not included in the directory

Any acute NHS hospitals which do not appear in the directory are classified as Scale D. They have been omitted purely in the interests of a more concise presentation. If treatment is received in any other hospital which is not shown in the directory, payment of benefit will be entirely at our discretion.

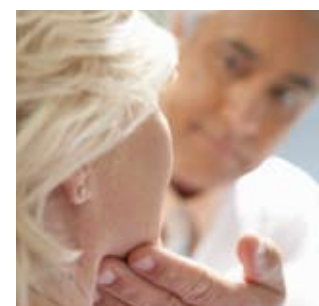

Please call our Helpline on 0800 294 7302 before proceeding with treatment.
