

UK hospital list from Standard Life

Hello.

Your complete hospital list

At Standard Life we have developed strong partnerships with leading, private hospital groups, ensuring your employees prompt access to private treatment.

Giving you choice

As Group Secretary you can select either our Countrywide hospital list or our Guided Option list for your employees. Whichever you choose, they can only be treated at hospitals on that list so please check the colour coded sections. This is particularly important if your employees have the Guided Option list which contains BUPA, BMI and Capio private hospitals as well as some Nuffield hospitals.

Guided Option

Guided Option offers a 15% discount due to its "open referral" claims process. We have a special arrangement with leading hospital groups, that means with Guided Option they'll choose your consultant and manage your treatment from beginning to end. By doing this, they can make better use of their resources and so can charge less. We then pass this saving on to you as a 15% discount.

London upgrades

When you choose our Countrywide hospital list you have the option of two London upgrades for an extra premium, giving your employee access to some of the most prestigious private hospitals in Central London. The hospitals for each London upgrade are shown on page 10.

NHS wait option

Choosing our NHS wait option can also reduce your premiums by a further 15%. It works like this: if the NHS is able to treat your employee promptly, then they will receive treatment from them. But if they have to wait any longer than six weeks for in-patient or day-patient treatment, then we step in and pay for your employee to be treated immediately at a private hospital on their chosen hospital list. **(This option is not available if the employee is on the Guided Option hospital list.)**

NHS hospitals

If one of your employees is admitted to an NHS hospital but not as a private patient, they could be entitled to receive a cash payment of £250 per night, up to £2,000 in each plan year. When admitted as a day-patient, they will be entitled to £125 per day, up to £500 in each plan year. **(Not available with NHS wait option.)**

If they prefer, your employees can arrange to be admitted to an NHS "paybed" as a private patient, but availability is at the discretion of the NHS and they are not guaranteed a single room or facilities of a "hotel" standard. **(Please note this option is not available with our Guided Option list.)**

Psychiatric hospitals

If you choose our Psychiatric Treatment module, your employee may also use any of the psychiatric hospitals listed on page 13.

Access to the best treatment

On the very rare occasions where a condition requires treatment at facilities not available in any of the hospitals on our list, your employee's consultant may wish to refer them to another private hospital. We will do our utmost to accommodate this, but they must get written approval from us before treatment begins. We expect our customers to benefit from in-patient, single room en-suite accommodation at private hospitals and NHS Private Patient Units (PPUs) across the UK. However this may not always be the case at certain facilities in central London.

Settling bills direct

Wherever possible, we settle bills direct with the hospital or specialist on behalf of your employees, so they do not have to worry about paying out large amounts of money. Occasionally, some hospitals will ask for payment of out-patient treatment for a consultation, and for these smaller amounts we have a simple procedure for claiming the costs back from us.

If one of your employees need to make a claim

For total peace of mind, we will give your employee written authorisation before they incur any treatment costs. To make it easy, there is a step by step guide to claiming inside each membership pack.

When children need care

We will always do everything we can to help your employee and their family to access the care they need. However there are limited facilities available in the private sector for the treatment of children and young people. Therefore, should any young person on the plan require treatment, please discuss their care needs with your GP or consultant, or contact our customer care team, who will be able to advise on the nearest available facility.

The NHS provides some of the best paediatric care in the world, however care is most likely to be provided on a general ward environment rather than in a dedicated private section.

1

Countrywide hospital list

A comprehensive selection of hospitals from leading hospital groups such as BUPA, Capio, Nuffield and BMI, as well as other private hospitals and NHS hospitals with PPUs. Every private hospital outside London is included, plus some in London – see inside for details. And don't forget your employees can use NHS paybeds if they wish.

2

Countrywide London upgrade

You can add a London Upgrade, which means that as well as the extensive range of hospitals on the Countrywide hospital list, your employees will also be able to choose to be treated at any of seven central London hospitals, including some of the more expensive and most prestigious.

3

Extended London upgrade

This provides access to three more London hospitals in addition to those on our Countrywide London upgrade. This means you can choose any central London hospital as well as all the hospitals on our Countrywide hospital list.

4

Guided Option

If you choose the Guided Option for your employees, then this list shows the BUPA, BMI, Capio and Nuffield hospitals that are available.

Regardless of the list you select, if your plan includes psychiatric care, you can also be treated at any of the dedicated psychiatric hospitals listed on page 13.

1. Countrywide hospital list

Bedfordshire	
Biddenham	BMI The Manor Hospital
